## WHY VIRTUAL SIGNS?

### ■ ADVANTAGES

- Enhance Safety and OSHA Compliance
- Minimize Maintenance Costs
- Flexible and Easily Customizable
- Modern, Eco-Friendly Technology
- Indestructible Compared to Paint and Tape
- Easier Safety Enforcement

### ■ PERFECT FOR

- Rugged / Cold / Hot / Humid Conditions
- High Traffic / Risk Areas
- Low-Light Environments
- Moving Equipment
- Locations where Paint and Tape are Impractical

### ■ EASY INSTALLATION

- No need for specially-trained techs
- Assistance directly from Gobosource

## WAYFINDING PROJECTORS

### ■ NEW PRODUCT

Wayfinding projectors are designed to project animated patterns that stand out even in busy environments. Unlike static images, which people quickly become accustomed to and may overlook, animated patterns like sequentially lighting chevrons convey a sense of urgency and effectively guide traffic. The animation can be easily selected to suit various needs.

Pattern length up to 12ft.  
Power 70W

# INDUSTRIAL SIGN PROJECTOR LINEUP

Our purpose-built, industrial-strength sign projectors have no moving parts that can break or gunk up. They are designed to last in rugged indoor and outdoor applications. They have a wide power and temperature range, and require no service.

## ECO SPOT PCE SERIES

The listed projection sizes and distances are based on typical industrial environments.

### ECO Spot C20PCE Sign Projector

ULTRA-COMPACT DESIGN

- Power: 20W LED
- Projection Size: up to 3ft.
- Projection Distance: up to 16ft.
- IP65 Rated
- Typical Use: smaller wall signage, i.e. First Aid, Eye Wash Station

### ECO Spot B90PCE Sign Projector

- Power: 90W LED
- Projection Size: up to 9ft.
- Projection Distance: up to 40ft.
- UL/cUL Certified, IP65
- Typical Use: medium-large floor signage, i.e. STOP Bars, STOP Signs

### ECO Spot C40PCE Sign Projector

COMPACT DESIGN

- Power: 40W LED
- Projection Size: up to 4ft.
- Projection Distance: up to 32ft.
- IP65 Rated
- Typical Use: smaller floor signage, i.e. Stop-Look-Point, Yield

### ECO Spot B150PCE Sign Projector

- Power: 150W LED
- Projection Size: up to 12ft.
- Projection Distance: up to 48ft.
- UL/cUL Certified, IP65
- Typical Use: large floor signage, i.e. intersections, 4-Way STOP, small walkways

### ECO Spot C60PCE Sign Projector

- Power: 60W LED
- Projection Size: up to 6ft.
- Projection Distance: up to 40ft.
- UL/cUL Certified, IP65
- Typical Use: medium size floor signage, i.e. STOP, Forklift Caution

### ECO Spot B300PCE Sign Projector

- Power: 300W LED
- Projection Size: up to 14ft.
- Projection Distance: up to 54ft.
- UL/cUL Certified, IP65
- Typical Use: large floor signage, i.e. walkways, larger marked areas

## ECO LINES SERIES

The listed projection sizes and distances are based on typical industrial environments.

### ECO Lines ELF-80/F150 Focusable Line Projectors

- Focusable for crisper, brighter lines
- Available in 80W and 150W
- Line Length: up to 60ft.
- Line Width: 4 to 6in.
- Selectable line length option
- Colors: yellow, green, red, blue, amber, white
- Rugged, for wet and dusty environments
- Wide temperature range

### ECO Lines EL-F80/F150 RGY Color Changing Line Projectors

- All features of the EL-F-series
- Switches between red, green, yellow
- Sophisticated but simple controls
- 10 color and pattern profiles
- Dry-switch and 1-10V input controls
- Available in 80W and 150W

### Control Systems (for all projectors but C20PCE)

- Control module for On/Off/Dim/Blink functionality with motion sensor or AUX input
- Motion sensors for occupancy
- Motion sensors for vehicle/pedestrian and directional detection
- Cables, adapters, mounting hardware

## COMMON APPLICATIONS

“ Gobosource projectors have significantly reduced our safety signage costs, and their low maintenance requirements and longevity make them the optimal choice for our organization. — AJ, Detroit, MI ”

## THE GOBOSOURCE DIFFERENCE

- **INDUSTRY LEADERS**  
We are at the forefront of cutting-edge products & solutions for projected signage.
